ORIGOBIO

FUTURE OF CLINICAL PROCEDURES FOR COMMINUTED FRACTURES

Inject onto the fracture surface

Securely bonded in just 3 minutes

Tensile strength reaches 3MPa

Product advantages

- Biodegradable **in 6 months**
- Immediate adhesion and fixation **in 3 minutes**
- High strength up to 3PMa

Product clinical advantages

- Precise bone fragment alignment
- Faster, higher-quality fracture reduction; fewer X-rays
- Easy to operate compared with standard fixation

Hangzhou OrigO Biotechnology Co., Ltd.

Manufacturer Address

Floor 1-3, Building 16, No. 501 Fucheng Rd, Qiantang District, Hangzhou, Zhejiang, China

ORIGOBIO

Innovation Empowers Regeneration

INNOVATIVE BONE ADHESIVE

Rapid fracture stabilization in **3 minutes** with a single injection

KEY FEATURES OF BONE-02

Ultra-strong bonding: Tensile strength > 3 MPa

Immediate fixation: Stable bone fixation in **3 minutes**

Biodegradable：Biodegrades as new bone forms,no second surgery

CLINICAL PROOF

150+ subjects, RCT in multicenters
proven safety and efficacy

INSPIRED BY NATURE

Developed by a team
led by Dr.Lin Xianfeng,
inspired by oysters
